

THE DIRT!

SOILBIOTICS COMPANY E-NEWSLETTER

JANUARY 2023

Spring Products

Use our **Soil Boost** broadcast applied with spring applied dry fertilizers to improve soil structure, maintain nutrient availability, and stimulate microbial activity. (This product is used in both Conventional and Organic programs). You'll see reduced compaction, increased aeration, and improved drainage. That will help you get into the field days faster to plant your crop. You'll also conserve applied fertilizers and chelate soil-bound nutrients for greater availability.

For Conventional programs, SoilBiotics **OS 46** is a ready-to-use fertilizer with a unique formulation of high-quality 46-0-0 urea and SoilBiotics humic product. Unlike products using urease inhibitors, which tend to work only in the short term, **OS 46** can hold the urea nitrogen in organic form for months so it will be ready when the plant needs it.

Ask about **SB Super Sweet**, a unique liquid formulation of natural sugars. It is a source of quick carbon consumption for feeding and increasing populations of bacteria and microorganisms in soils.

Upcoming Shows

SAVE THE DATE - WINTER MEETING

Plan on joining the SoilBiotics staff along with organic farmer, researcher, and SoilBiotics Distributor, Andy Clayton, for an informative meeting on Friday, March 24th, 2023.

We will be publishing a full agenda in our FEB newsletter.

The meeting is at The Wright Conference Center, 1 Charles Street, Rushville, IL 62681, in the same building as State Farm Insurance and same parking lot as the USDA office. Sign-in is at 9:30 a.m. and the presentations are from 10:00 a.m. to 12:30 p.m. Lunch will be served.

Pre-registration is required. Please RSVP by Friday, March 10th to: The SoilBiotics office @ 815-929-1752, or Andy Clayton @ Mobile: (217) 322-2639.
