

THE DIRT!

SOILBIOTICS COMPANY E-NEWSLETTER

APRIL 2022

We Have N!

Pressure on N this year is heavy, and availability is tight, so give us a call and let's talk about **OS 46**.

OS 46, a ready-to-use fertilizer with a unique formulation of high-quality 46-0-0 urea and SoilBiotics **Humic product**. This product has the ability to hold the N in place for the plant to use throughout the season, so you maximize your input investment. Plants will have the N they need **when they need it**, resulting in healthier, stronger plants that will yield much better results. It can be applied in strip-till, pre-plant broadcast, post-emergence broadcast or banded as a nitrogen side-dress. **AND, we make OS 46 right here at our facility so we can meet your needs when you are ready.**

Growth Boost and **Organic Growth Boost** are chelators, protecting N from being lost by leaching and volatilization to keep it available for the crop, and increasing soil micronutrient availability. *See below for our April discount!*

Growth Supplement 30 is a foliar applied nitrogen stabilizer that also stimulates plant metabolism, transports nutrients in plants, dissolves macro and micro elements, and enhances cell division and elongation. *See below for our April discount!*

Don't Miss Our April Discount Program!

We are offering 10% off **Growth Boost**, **Organic Growth Boost**, and **Growth Supplement 30** purchased in April for product packaged in cases (while supplies last), pails, drums and totes. The discount is only for orders placed in April for delivery in April and May.

B2R Podcast

Just a reminder that SoilBiotics is one of the sponsors of the **Back to The Roots (B2R)** monthly podcast for organic farmers. This is a farmer-to-farmer podcast and you can pick up a lot of tips from fellow farmers. Take the time to visit their website and listen to the archived podcasts on a variety of subjects.
