

THE DIRT!

SOILBIOTICS COMPANY E-NEWSLETTER

Winter #4 2017

4 – Ultra Boost and Urea will kick-start your 2017 crops!

4 – Ultra Boost is a liquid Humic Acid product designed for production agriculture. It is applied at planting or at emergence, and benefits include:

- Very quick start for seedlings.
- Soil micronutrients are made more available to the plants via enhanced chelation.
- Applied nutrients are more easily taken up by the plant, increasing efficiency and yields.

We have had excellent results with impregnation of **4 – Ultra Boost** into granular Urea, as shown in the accompanying photos. **4 – Ultra Boost** is blended with Urea (or other dry fertilizers) prior to application, at a rate of 1 gallon per ton of fertilizer.

Urea granules coated with **4 – Ultra Boost**.

Granules split in half to show very good absorption of **4 – Ultra Boost**.

SoilBiotics Spring Discount Program for Organic 5r – Soil Boost EA Begins Soon

For orders of **Organic 5r – Soil Boost EA** placed between March 1, 2017 and March 31, 2017, to ship no later than April 30, 2017, receive \$100 off per ton or \$50 off per half ton.
