

Soil Boost

CONTAINS BENEFICIAL SUBSTANCE(S)

Humic Acids from leonardite: 70%

Purpose: May aid in micronutrient uptake

INSTRUCTIONS FOR USE:

- This product is compatible with most conventional and organic products.
- Can be applied to most soils.
- Should not be mixed when Soil Boost and other dry products are wet.
- DO NOT USE WITH UREA
- May be blended with Sulfate of Potash (0-0-50) or Calcium Phosphate (0-17.5-0-)
- Should be used within the growing season it was purchased.

See Product Data Sheet or SDS for storage guidelines.

RECOMMENDED APPLICATION RATE:

Broadcast 100 to 200 pounds per acre. For agronomic application rates suitable for your crop, geographic area and soil type, consult a trained specialist and apply as needed based on a soil test, tissue analysis and/or according to recommendations in your SoilBiotics Crop Management Plan. A jar test is recommended to confirm compatibility. Overuse on the intended crop, or under conditions other than those recommended, may result in serious injury to the crop. Do not apply if a heavy rain is expected. Do not apply near water, storm drains, or drainage ditches or to any impervious surface. Only apply to intended application area.
